

Covers / Linen

The natural weave of our linen fabric has a contemporary feel with an exceptionally brilliant range of 30 colours. Match your brand or event theme perfectly by selecting a matching linen from our solid colour range, or our mixed grain ranges available in natural or textured options.

Covers / Linen

The natural weave of our linen fabric has a contemporary feel with an exceptionally brilliant range of 30 colours. Match your brand or event theme perfectly by selecting a matching linen from our solid colour range, or our mixed grain ranges available in natural or textured options.

Our **Baby Blue** linen cover has a natural compact weave of thread helping to keep the cover contemporary.

The **UV Printing Technique** offers more flexibility for your cover personalisation compared to the traditional embossing.

With a computer generated black print, you can create a full front cover design using black and white jpegs, text, logos or line art creations. If you reduce your black percentage in your lin art file, your UV print will be on a grayscale with a softer contrast.
