Leatherette / **Black**

UV Print

Our stunning **Black** leatherette cover is the perfect smoother alternative to our genuine leather.

The **UV Printing Technique** offers more flexibility for your cover personalisation compared to the traditional embossing. With a computer generated grayscale print, you can create a full front cover design using black and white jpegs, text, logos or line art creations.

The colour of the UV print will be a silvery grayscale tone and the strength of this colour is dictated by the colour of your leatherette.
